Disability Support Pension Impairment Tables Questionnaire

Response: 066

| Medical evidence requirements 11b Select the theme of the proposed changes to the Impairment Tables that is the most important to you Medical evidence requirements 11b Select the theme of the proposed changes to the Impairment Tables that is the second most important to you Fatigue 11c Select the theme of the proposed changes to the Impairment Tables that is the third most Important to you Pain 12a (i) The removal of the term 'permanent condition' provides greater clarity that a condition must persist for two years as part of the DSP eligibility criteria Agree 12a (ii) The proposed changes more clearly describe the requirements of diagnosis, treatment and stabilisation of conditions for DSP assessment Agree 13a (i) The inclusion of additional defined terms provides greater clarity around terminology used in the Instrument Agree 13a (ii) Simpliffication in Part 2 of the Instrument improves the guidance and readability of the section Agree 13a (iii) The proposed changes to Table introductions and descriptors has made it easier to understand the requirements of Tables Agree 13a (iv) The additional guidance in appropriate Tables provides greater clarity when considering functional impairment. For example an additional guidance point to all Tables on fluctuating and episodic conditions Agree 13a (iv) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree | Maha Abed |
|---|--|
| Fatigue 11c Select the theme of the proposed changes to the Impairment Tables that is the second most Important to you Fatigue 11c Select the theme of the proposed changes to the Impairment Tables that is the third most important to you Pain 12a (i) The removal of the term 'permanent condition' provides greater clarity that a condition must persist for two years as part of the DSP eligibility criteria Agree 12a (ii) The proposed changes more clearly describe the requirements of diagnosis, treatment and stabilisation of conditions for DSP assessment Agree 13a (i) The inclusion of additional defined terms provides greater clarity around terminology used in the Instrument Agree 13a (ii) Simplification in Part 2 of the Instrument improves the guidance and readability of the section Agree 13a (iii) The proposed changes to Table introductions and descriptors has made it easier to understand the requirements of Tables Agree 13a (iv) The additional guidance in appropriate Tables provides greater clarity when considering functional impairment. For example an additional guidance point to all Tables on fluctuating and episodic conditions Agree 13a (iv) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 13a (iv) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 13a (iv) The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance missus in appropriate Tables Agree 13a (iv) The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree | 11a Select the key theme of the proposed changes to the Impairment Tables that is the most important to you |
| Fatigue 11c Select the theme of the proposed changes to the Impairment Tables that is the third most important to you Pain 12a (i) The removal of the term 'permanent condition' provides greater clarity that a condition must persist for two years as part of the DSP eligibility criteria Agree 12a (ii) The proposed changes more clearly describe the requirements of diagnosis, treatment and stabilisation of conditions for DSP assessment Agree 13a (i) The inclusion of additional defined terms provides greater clarity around terminology used in the Instrument Agree 13a (ii) Simplification in Part 2 of the Instrument improves the guidance and readability of the section Agree 13a (iii) The proposed changes to Table introductions and descriptors has made it easier to understand the requirements of Tables Agree 13a (iv) The additional guidance in appropriate Tables provides greater clarity when considering functional impairment. For example an additional guidance point to all Tables on fluctuating and episodic conditions Agree 13a (iv) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 13a (v) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 13a (v) The deficiency of the proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 13a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree | Medical evidence requirements |
| Pain 12a (i) The removal of the term 'permanent condition' provides greater clarity that a condition must persist for two years as part of the DSP eligibility criteria Agree 12a (ii) The proposed changes more clearly describe the requirements of diagnosis, treatment and stabilisation of conditions for DSP assessment Agree 13a (i) The inclusion of additional defined terms provides greater clarity around terminology used in the Instrument Agree 13a (ii) Simplification in Part 2 of the Instrument improves the guidance and readability of the section Agree 13a (iii) The proposed changes to Table introductions and descriptors has made it easier to understand the requirements of Tables Agree 13a (iv) The additional guidance in appropriate Tables provides greater clarity when considering functional impairment. For example an additional guidance point to all Tables on fluctuating and episodic conditions Agree 13a (v) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 13a (vi) The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a (vi) Proposed changes better represent the functional impact of pain | 11b Select the theme of the proposed changes to the Impairment Tables that is the second most important to you |
| Pain 12a (i) The removal of the term 'permanent condition' provides greater clarity that a condition must persist for two years as part of the DSP eligibility criteria Agree 12a (ii) The proposed changes more clearly describe the requirements of diagnosis, treatment and stabilisation of conditions for DSP assessment Agree 13a (i) The inclusion of additional defined terms provides greater clarity around terminology used in the Instrument Agree 13a (ii) Simplification in Part 2 of the Instrument improves the guidance and readability of the section Agree 13a (iii) The proposed changes to Table introductions and descriptors has made it easier to understand the requirements of Tables Agree 13a (iv) The additional guidance in appropriate Tables provides greater clarity when considering functional impairment. For example an additional guidance point to all Tables on fluctuating and episodic conditions Agree 13a (v) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 13a (vi) The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree | Fatigue |
| 12a (i) The removal of the term 'permanent condition' provides greater clarity that a condition must persist for two years as part of the DSP eligibility criteria Agree 12a (ii) The proposed changes more clearly describe the requirements of diagnosis, treatment and stabilisation of conditions for DSP assessment Agree 13a (i) The inclusion of additional defined terms provides greater clarity around terminology used in the Instrument Agree 13a (ii) Simplification in Part 2 of the Instrument improves the guidance and readability of the section Agree 13a (ii) The proposed changes to Table introductions and descriptors has made it easier to understand the requirements of Tables Agree 13a (iv) The additional guidance in appropriate Tables provides greater clarity when considering functional impairment. For example an additional guidance point to all Tables on fluctuating and episodic conditions Agree 13a (v) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 13a (v) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree | 11c Select the theme of the proposed changes to the Impairment Tables that is the third most important to you |
| Agree 12a (ii) The proposed changes more clearly describe the requirements of diagnosis, treatment and stabilisation of conditions for DSP assessment Agree 13a (i) The inclusion of additional defined terms provides greater clarity around terminology used in the Instrument Agree 13a (ii) Simplification in Part 2 of the Instrument improves the guidance and readability of the section Agree 13a (iii) The proposed changes to Table introductions and descriptors has made it easier to understand the requirements of Tables Agree 13a (iv) The additional guidance in appropriate Tables provides greater clarity when considering functional impairment. For example an additional guidance point to all Tables on fluctuating and episodic conditions Agree 13a (v) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree | Pain |
| 12a (ii) The proposed changes more clearly describe the requirements of diagnosis, treatment and stabilisation of conditions for DSP assessment Agree 13a (i) The inclusion of additional defined terms provides greater clarity around terminology used in the Instrument Agree 13a (ii) Simplification in Part 2 of the Instrument Improves the guidance and readability of the section Agree 13a (iii) The proposed changes to Table introductions and descriptors has made it easier to understand the requirements of Tables Agree 13a (iv) The additional guidance in appropriate Tables provides greater clarity when considering functional impairment. For example an additional guidance point to all Tables on fluctuating and episodic conditions Agree 13a (v) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree 16a (i) Proposed changes better represent the functional impact of pain | 12a (i) The removal of the term 'permanent condition' provides greater clarity that a condition must persist for two years as part of the DSP eligibility criteria |
| Agree 13a (i) The inclusion of additional defined terms provides greater clarity around terminology used in the Instrument Agree 13a (ii) Simplification in Part 2 of the Instrument improves the guidance and readability of the section Agree 13a (iii) The proposed changes to Table introductions and descriptors has made it easier to understand the requirements of Tables Agree 13a (iv) The additional guidance in appropriate Tables provides greater clarity when considering functional impairment. For example an additional guidance point to all Tables on fluctuating and episodic conditions Agree 13a (v) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree 16a (i) Proposed changes better represent the functional impact of pain | Agree |
| 13a (i) The inclusion of additional defined terms provides greater clarity around terminology used in the Instrument Agree 13a (ii) Simplification in Part 2 of the Instrument improves the guidance and readability of the section Agree 13a (iii) The proposed changes to Table introductions and descriptors has made it easier to understand the requirements of Tables Agree 13a (iv) The additional guidance in appropriate Tables provides greater clarity when considering functional impairment. For example an additional guidance point to all Tables on fluctuating and episodic conditions Agree 13a (v) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree 16a (i) Proposed changes better represent the functional impact of pain | |
| Agree 13a (ii) Simplification in Part 2 of the Instrument improves the guidance and readability of the section Agree 13a (iii) The proposed changes to Table introductions and descriptors has made it easier to understand the requirements of Tables Agree 13a (iv) The additional guidance in appropriate Tables provides greater clarity when considering functional impairment. For example an additional guidance point to all Tables on fluctuating and episodic conditions Agree 13a (v) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree 16a (i) Proposed changes better represent the functional impact of pain | Agree |
| 13a (ii) Simplification in Part 2 of the Instrument improves the guidance and readability of the section Agree 13a (iii) The proposed changes to Table introductions and descriptors has made it easier to understand the requirements of Tables Agree 13a (iv) The additional guidance in appropriate Tables provides greater clarity when considering functional impairment. For example an additional guidance point to all Tables on fluctuating and episodic conditions Agree 13a (v) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree 16a (i) Proposed changes better represent the functional impact of pain | 13a (i) The inclusion of additional defined terms provides greater clarity around terminology used in the Instrument |
| Agree 13a (iii) The proposed changes to Table introductions and descriptors has made it easier to understand the requirements of Tables Agree 13a (iv) The additional guidance in appropriate Tables provides greater clarity when considering functional impairment. For example an additional guidance point to all Tables on fluctuating and episodic conditions Agree 13a (v) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree 16a (i) Proposed changes better represent the functional impact of pain | Agree |
| 13a (iii) The proposed changes to Table introductions and descriptors has made it easier to understand the requirements of Tables Agree 13a (iv) The additional guidance in appropriate Tables provides greater clarity when considering functional impairment. For example an additional guidance point to all Tables on fluctuating and episodic conditions Agree 13a (v) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree 16a (i) Proposed changes better represent the functional impact of pain | 13a (ii) Simplification in Part 2 of the Instrument improves the guidance and readability of the section |
| Agree 13a (iv) The additional guidance in appropriate Tables provides greater clarity when considering functional impairment. For example an additional guidance point to all Tables on fluctuating and episodic conditions Agree 13a (v) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree 16a (i) Proposed changes better represent the functional impact of pain | Agree |
| 13a (iv) The additional guidance in appropriate Tables provides greater clarity when considering functional impairment. For example an additional guidance point to all Tables on fluctuating and episodic conditions Agree 13a (v) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree 16a (i) Proposed changes better represent the functional impact of pain | |
| impairment. For example an additional guidance point to all Tables on fluctuating and episodic conditions Agree 13a (v) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree 16a (i) Proposed changes better represent the functional impact of pain | Agree |
| 13a (v) The updating of references to relevant assistive technology provides clearer guidance and modernises the Tables Agree 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree 16a (i) Proposed changes better represent the functional impact of pain | |
| Agree 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree 16a (i) Proposed changes better represent the functional impact of pain | Agree |
| 13a (vi) The broader range of examples in the Tables illustrates how a person's functional impairment may impact their ability to work Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree 16a (i) Proposed changes better represent the functional impact of pain | |
| ability to work Agree 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree 16a (i) Proposed changes better represent the functional impact of pain | Agree |
| 14a The proposed changes recognise and capture the functional impacts relating to alcohol, drug and other substance misuse in appropriate Tables Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree 16a (i) Proposed changes better represent the functional impact of pain | |
| Agree 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree 16a (i) Proposed changes better represent the functional impact of pain | Agree |
| 15a The addition of guidance recognises the impacts of ongoing side effects from prescribed medication and treatment Agree 16a (i) Proposed changes better represent the functional impact of pain | |
| Agree 16a (i) Proposed changes better represent the functional impact of pain | - |
| 16a (i) Proposed changes better represent the functional impact of pain | |
| | - |
| Agree | |
| | Agree |

16a (ii) Additional examples of pain related conditions that result in functional impairment provide more clarity around the types of conditions that may be assessed against a Table

Agree

17a Additional examples of chronic illnesses that result in functional impairment provide greater clarity around the types of conditions that may be assessed against a Table

Agree

18a Additional examples of renal conditions that result in functional impairment provide more clarity around the types of conditions that may be assessed against a Table

Agree

19a (i) Additional examples of fatigue related conditions that result in functional impairment provide greater clarity around the types of conditions that may be assessed against a Table

Agree

19a (ii) The inclusion of a personal care descriptor captures the functional impacts of fatigue on a person's ability to undertake personal care activities

Agree

19a (iii) Proposed changes better represent the functional impact of fatigue related conditions

Agree

20a Additional examples of cancer and subsequent conditions that result in functional impairment provide more clarity around these types of conditions that may be assessed against a Table

Agree

21a (i) Additional examples of specific pieces of evidence that may be used to support a claim assists individuals to identify the accepted range of medical evidence that can be provided

Agree

21a (ii) Additional examples of professionals assists individuals identify the range of appropriate practitioners who are able to provide medical evidence in support of their claims

Agree

22a (i) Addition of descriptors better capture shoulder function in Table 2 - Upper Limb Function

Agree

22a (ii) The addition of descriptors for the loss of function of a dominant limb under Table 2 – Upper Limb Function better recognises functional impacts of losing a dominant upper limb

Agree

22a (iii) Additional examples of specific skin conditions that result in functional impairment provide more clarity around the types of conditions that may be assessed against a Table

Agree

23a The proposed changes better capture the functional impacts of balance, dizziness and a person's ability to stand

Agree

24a The proposed change will better support individuals by providing a broader range of medical professionals allowed to provide corroborating evidence in support of a diagnosis of a mental health condition for assessment under Table 5 – Mental Health Function

Agree

25a The proposed changes improve alignment with other recognised mental health assessment tools (including the World Health Organization Disability Assessment Schedule –WHODAS, Diagnostic and Statistical Manual of Mental Disorders – DSM, World Health Organization International Classification of Diseases - ICD)

Agree

26a (i) Proposed changes better reflect conditions on the spectrum of neurodiversity

Unsure

26a (ii) The addition of a new social skills descriptors in the table relating to brain function recognise difficulties a neurodivergent person may experience in social situations

Unsure

26b Regarding the proposed change on Table 6 – Brain Function to better recognise social skills difficulties, would you prefer to:

add a new social skills descriptor and require a person to meet at least two descriptors for the relevant impairment rating to be assigned

27a The proposed changes better recognise the need for culturally appropriate assessments

Agree
