

Organisation name

Anglo-Indian Australasian Association of Victoria Inc

Email

[REDACTED]

1.1 What would a partnership between CSOs and the government that achieves outcomes for Australians being supported by the community sector look like?

Our organisation works with individuals in the community who require low cost accommodation and by us providing them with this, they dont have to go into aged care residential services and put a cost on Govt. People live independently but in a Rooming house or in individual units. Check our website and our longevity for 52 years <http://www.angloindianassociationvic.com.au/>

2.1 What would adequate and flexible funding look like?

Look at what we are doing and help us to build housing for disadvantaged community members. Look at our website and help us with funding to run more events, more tours local and interstate for community.

2.2 What administrative and overhead costs are not being considered in current grant funding?

When funding of \$2000 is given and we cannot charge door entry of \$20, we cannot fund an event which costs the Anglo-Indian Australasian Association of Victoria \$9000.

2.3 How are rising operational costs impacting the delivery of community services?

Like everywhere when people do not have the funds, they dont attend events, tours and trips
